PRODUCT DESCRIPTION

Here at Street Furniture Direct we have been providing projects up and down the country with our high quality Steel Bollards. We are able to provide a wide range of options on all of our Steel Bollards from powder coating in any RAL colour, to a range of different caps.

The cap we provide as standard is a welded flat cap, but there are choices available including; a domed top, a semi domed top, a mitred top, along with many more for a small extra cost. If you do require a different cap please contact one of our trained advisers. Unlike many other companies we don't have any minimum order amount on our Steel Bollards and because these are in stock we would look to have them with you in 48 hours.

The **101mm Diameter Titan Steel Bollard** is manufactured from 5mm gauge steel wall, galvanised and can be powder coated in a range of colours. Hazard Banding strips are also available for additional visibility at night.

Looking for more security? Consider our Titan Reinforced Steel Bollard for additional Anti-Ram benefits. If you are looking for a selection of bollards or to create a collection of street furniture, let us know and we can help you put together a full solution.

*Powder Coating will require a longer lead time
