

AIRLITE ILLUMINATED BOLLARD

Product Code: SFD5812

PRODUCT DESCRIPTION

The 'Airlite' is crafted from high quality aluminium and is a contemporary, elegant post light, available in heights of 400mm or 600mm. The durability of the path light is combined with the eye-catching 'bubble' effect in the substantial solid crystal glass head, to perfectly bridge the gap between decorative garden lighting and robust bollard lights. Air bubbles inside the head give a unique and pleasing effect which looks great in daylight or at night. Once illuminated, it acts as both a standard path light and as an uplighter, so if placed beneath trees the effect is amazing!

SPECIFICATIONS

Weight	4.00 kg
Height	400mm
Diameter	101mm
Fixing	Surface Mounted
Material	Stainless Steel
Colour	Galvanised
