PRODUCT DESCRIPTION

Here at Street Furniture Direct we have been providing projects up and down the country with our high-quality Telescopic Bollards. All of our Telescopic Bollards are lockable and can be keyed alike or different, so you have control over who has access. Telescopic Bollards are a great way of securing an entrance or protecting against Ram Raids in a cost effective package.

Our Steel Telescopic Bollards are galvanised as standard with the option for powder coating in any RAL colour. We hold in stock a range of Steel Telescopic Bollards to be able to have your order with you within 48 hours.

The **Lift Assist 114mm Diameter Steel Telescopic Bollard** has a steel section installed into the ground and a steel bollard that can be hidden to allow access. The Lift Assisted Telescopic Bollard is designed to reduce the lifting weight of the bollard by up to 70% to allow the units to be raised and lowered with minimum of effort. The Lift Assist still maintains the benefits of a telescopic bollard which is designed to withstand a high impact.

If you are looking for a selection of bollards or to create a collection of street furniture, let us know and we can help you put together a full solution.

*Powder Coating will require a longer lead time
